

The UAF Faculty Senate passed the following at Meeting #184, September 10, 2012:

The UAF Faculty Senate moves to approve the elimination of the M.A.T. degree in Biology.

EFFECTIVE:            Fall 2013

As a result of the program review process, the Chancellor's

Further, the committee recommended the program be discontinued at that time:

"No students have been enrolled in this program since 2003 and only 3 students have been awarded this degree. Doug Schamel, who was very passionate about K-12 education but passed away a number of years ago, led this program. If there were potential students (K-12
